

Let NSTAR Electric help you save money, energy and the environment.

Weather responsive controls for oil or propane forced hot water heating systems, also know as boiler reset controls or boiler water temperature controls, are designed to adjust your heating system water temperature in relation to the outdoor temperature. This helps your home to maintain a constant temperature in the most cost effective way possible.

After you've purchased and installed your weather responsive control for your oil or propane forced hot water heating system, complete and return this rebate form along with a copy of the dated invoice regarding the purchase and installation of the equipment to: NSTAR Electric Residential Weather Responsive Heating System Controls Rebate Program; c/o Conservation Services Group; 40 Washington Street, Suite 3000; Westborough, MA 01581. For more information regarding this program call 1-800-649-7667.

Eligibility

- You must be an NSTAR Electric residential customer installing a weather responsive heating system control on a forced hot water heating system
- Must be installed in a 1-4 family home
- You must be eligible to participate in the MassSAVE program
- Rebate is valid for installations made between August 1, 2009 through December 31, 2009
- Applications must be received within thirty (30) days of installation
- **Applications must include:**
 - Dated receipt/invoice/work order noting completion of installation
- Additional restrictions may apply

For more information, call 1-800-649-7667.

TERMS AND CONDITIONS

Rebates: Subject to these Terms and Conditions. NSTAR (the "Company"), through its contractual Vendor, Conservation Services Group (the "Vendor"), will pay rebates to eligible NSTAR customers for the installation in NSTAR's service territory of high-efficiency oil or propane heating system control.

Customer Eligibility: You must be an NSTAR Electric residential customer replacing an existing oil or propane heating system with a high-efficiency oil or propane heating system in NSTAR's service territory. You must be eligible to participate in the MassSAVE Program. Equipment installed between August 1, 2009 and December 31, 2009 is eligible. Equipment must have been installed at the installation address on the front of the application. The Vendor must receive application and required documents listed within 30 days of installation.

Post-Installation Work Verification: Prior to offering any rebate the Company reserves the right to conduct an on-site verification that the equipment was installed according to the guidelines of the program and is operating properly. It does not include any kind of safety review and should not be relied upon as one. If the company determines that the system installed does not meet the program specifications as described in the application, the Company reserves the right to refuse to pay the rebate.

Rebate Application: The Customer is responsible for completing all required Customer and Contractor information on the Rebate Application (the "Application"). Rebate applications will not be processed if they are not properly filled out and accompanied by your dated sales receipt/invoice/work order noting completion of the installation.

Rebate Amounts: If the Customer is in full compliance with the terms and conditions of this agreement, the Company will provide \$100 in rebates per weather responsive control for your oil or propane forced hot water heating system.

No Warranties: The Company and the Vendor do not endorse, guarantee, or warrant any particular contractor, manufacturer, or product. The Company and the Vendor do not make any representation of any kind regarding the results to be achieved by the heating system or the adequacy of such system.

Changes in the Rebate Program: The program and these Terms and Conditions may be changed by the Company and the Vendor at any time without notice.

Contractor Insurance: The Company and the Vendor are not responsible for any damage that may be caused by or arise out of an installation of any heating system. The Customer should select Contractors who carry appropriate insurance coverage and licenses.

Liability: The Company is not liable for any Customer damages that may occur as a result of the termination of this program beyond the amount of the rebate.

Energy Benefits: NSTAR is entitled to 100% of the energy benefits associated with this rebate, excluding the value of energy cost savings to you, our customer, but including all rights to all associated Independent Systems Operator — New England, Energy, Capacity and Reserves Products, and you, our customer, agree to provide NSTAR with such further documentation as we may request to confirm NSTAR's ownership of such benefits and Products.
